

AMEL Super Maramu 53 feet sailing vessel for sale.

S/Y Bolero is for sale. She is in very good condition and not wearied down or misused.

We have been sailing her in Turkey and Greece for a period of 6 years. I got ill, so she was on the hard for a period of 3 years and thereafter 2 more years as the Corona blocked our access to Greece.

So now she is back in the water after been serviced by Leros Marinas Technicians.

Most Sea cocks have been replaced, the holding tank has been renewed with new cock and tubes.

The bow thruster has been serviced with a complete service kit from Amel

Main engine got a new belt for alternator, water pump and new timing belt and tensioners. Fresh oil and filter and is running smoothly.

Generator is a new model 7.5 KW and got fresh oil and filter.

All instruments are working fine, these are the original instruments from B&K and give you all needed information of depth, speed, wind and wind direction.

The boat is equipped almost ready for a world tour, but we did not succeed with that due personal reasons.

There are plenty of spare parts, lots of tools and a well equipped "kitchen" with more accessories than you properly need.

As you see on many older boats does the loft fall down because the foam layer between the fiberglass and the walls/loft deteriorates. Bolero has new wall and loft coverage installed in the cabins so it looks very fine and is tight to the fiberglass.

All mattresses has been replaced with broad and well designed foam mattresses, but still in respect of the furniture and upholstery fabric.

This boat is besides being an eminent sailboat also a very safe boat with 3 watertight sections if you run into an accident.

You will find a lot of worldwide paper charts, old but still quite valid as the movement of rocks and mountains is limited, but for planning and cruising they are fine. A lot of sailing books are included describing several countries.

In the following pages you find pictures of the inside of the boat with an explanation for the shown details. I hope you find answers to what ever you may want to know but if not, please write me in English or Danish language to: heme@moonsite.dk.

Technical data:	Amel Super Maramu year 1992 approved for 12/8 persons
Engine hours	3047
Generator hours	403
Charger	12V + Mastervolt 24V30A
Solar	400 Watt
Batteries	4*6V Rolls Deep Cycle = 24V 300AH @ 3A Jan. 2025
Inverter	Sinus 24 → 230 V 400W
Radar	B&G 4G shortwave
Instruments	B&G Hydra 2 / 330
Autopilot	Autohelm ST 7000
GPS	Furuno GP 32
VHF	Standard Horizon GX 2100 incl remote station
VHF	Icom IC-M3A + Icom IC-M 23
GMDSS Navtex & Weather radio	Fastnet FMD 25 decoder
Shortwave radio	Icon IC 706/2 + Tuner SG 230 status unknown/Not in use
Broadcast radio	Pioneer 4*50W
PC	HP Elite book
Plotter	Geonav 11" Fair condition, incl maps for Mediterranean sea
Water maker	Series AMEL
Washing machine	Candy
Dishwasher	Arthur Martin
Ice cube machine	Vestel
Cooling	Fridge and Fridge/Freezer newly serviced
